Commended

I congratulate Holmes Alexander in his fine article, "The Two Gen. Taylors and Their Records," in the June 6 Times.

I commend this article to every American and suggest that voices be heard in behalf of Gen. Max Taylor to be appointed by President Kennedy as director of the Central Intelligence Agency.

It is time for Americans everywhere to awaken to the extreme danger of communism and the methods used by the party leaders in infiltrating our government bodies.

Let's keep the CIA as effective in its fight against communism as the FBI.
